Why Choose Premier Pest Control?

If you are looking for a reliable pest control company that is small enough to give you a personal service but still large enough to provide 24/7 pest protection or even national coverage, then we Premier Pest Control are the answer.

We always deliver for our customers and never let them down.

Premier Pest Control. Mosquito and The Environment

Like you, we also care passionately about the environment and you can therefore choose our paperless system and a raft of other sustainable practices including electric vehicles, power saving technology and carbon reduction incentives to deliver our services in an eco-friendly manner.

Electronic Reporting System

Flexible and Comprehensive Records.

Our reporting system Mosquito, is unique to Premier Pest Control Services and allows you to instantly access all your important records, whilst being really easy to use. That means that wherever you are you can access Mosquito-24 hours a day, 7 days a week.

Our Technicians can connect mobile printers to generate reports but you can also choose a totally paperless system to optimize your green credentials, whilst saving you money on printing costs.

Access to your records is through our website, via your password protected portal. Our customers all love Mosquito but if there is any aspect that does not work for you, we can quickly change it to suit your needs.

What about Compliance with legislation and Government Officials?

We will help you deal with Environmental Health Officers, Health and Safety and other Government bodies/officials. If you are involved in the Food or associated Industries, Mosquito is fully compliant with standards such as BRC, SALSA and all the retailer standards.

Trend Analysis is available at the touch of a button. Reports and recommendations can be printed or routed simply and quickly, saving you time and money.
